HIGH VOLUME/HIGH SPEED NETWORK SCANNING SOLUTION.

The KV-N1058X network document scanner features a 5" color touch display to help streamline your document scanning experience. The bright and colorful user interface is designed to make common scanning tasks easy. The robust 65PPM scanning engine with active double feed roller system ensures documents are fed reliably and supports a variety of document types like long paper, embossed hard cards and passports.

Integrating the KV-N1058X into your document management system is easy! Both a Gigabit Ethernet connection and 802.11 b/g/n wireless, with enterprise-level security, are included. The advanced security feature set of the KV-N1058X includes Network User Authentication, SSL/TLS communication protocols and the ability to restrict scanning features by user.

The KV-N1058X offers a variety of scan to destinations including scanning to email, FTP or shared network folder. For advanced document management, the KV-N1058X offers an optional Scan Server application which includes the ability to scan documents to SharePoint or cloud repository. In addition, the Scan Server software includes the ability to create text searchable documents, automatically rotate scanned images to the correct orientation or process barcoded documents.

Designed for easy integration and high performance, the KV-N1058X enables you to increase productivity and reduce equipment costs by automating common scanning processes with a centralized device.

¹The scanning speed differs depending on the host computer, the operating system, the application, the measuring method, the quantity of data in the image, and the paper type. The scanning speed depends on a measuring method of Panasonic.
²"Weight in pounds" of paper represents the weight of 500 (17 x 22 inches / 432 x 559 mm) sheets.
³Dimensions and weight are approximate.

ADVANCED SECURITY FEATURES

The KV-N1058X includes a variety of security features to prevent unauthorized device use and protect network data communications. Security features include network user authentication, SFTP, and SSL/TLS communication protocols.

IMAGE CAPTURE PLUS MOBILE

Image Capture Plus Mobile is an application which allows you to scan documents directly into your mobile device. Scanned documents can then be saved or exported to email or cloud repository. Users can scan documents over the office Wi-Fi network or built-in access point which allows up to five users to directly connect to the scanner.

OPTIONS TO EXPAND YOUR SCANNING OPERATIONS

While the KV-N1058X includes a single user license of Image Capture Plus, additional user licenses are available. The KV-SS094 Scan Server software with 10 user license is required for users who need advanced OCR or scan-to-cloud/SharePoint capabilities.

As an ENERGY STAR® partner, Panasonic has determined that this product meets the ENERGY STAR guidelines for energy efficiency.
