

ScanPro All-In-One Microfilm Scanners

Read. Scan. Print. Convert.

The microfilm revolution is here. Whether you need a low-cost option or the top-of-the-line microfilm scanner, we have the universal solution that's just right for you. See the difference with our award-winning scanners that offer exclusive features and innovative technology only available through e-ImageData. Our ScanPro® product line has been specifically designed to meet not only your current application needs but your future needs as well — making it the only microfilm scanner you will ever have to buy.

MEET THE CURRENT SCANPRO ALL-IN-ONE MODELS

Select the ScanPro model that has the features and solutions to meet your expectations.

ScanPro 2200 All-In-One

The most popular replacement for old reader/printers. Not only is the ScanPro 2200 All-In-One™ the most budget-friendly scanner on the market, the 2200 All-In-One has all the necessary features needed to read, scan, print and convert your film collections. If budget is a concern, the 2200 All-In-One is the affordable solution.

ScanPro 3000 All-In-One

This top-of-the-line solution encompasses all of our exclusive features including the 26 megapixel camera* that provides the clearest images in the industry. If you're looking for the most precise images available, the ScanPro 3000 All-In-One is for you.

ScanPro i9300 All-In-One

Got Blips? The ScanPro i9300 All-In-One is the best, and only, solution to handle your blipped film collection. It features the same 26 megapixel camera* as the 3000 All-In-One which means it produces the clearest image on the market. And, it can handle your entire film collection!

The ScanPro 3000 is a miracle product!

— Cleveland Public Library

I would recommend the AUTO-Carrier to any entity who has a need and a desire to get the best possible product on the market.

— Jana Wells, Imaging Supervisor, Warren County Records Center and Archives, Lebanon, Ohio

The AUTO-Carrier is ingenious!

— Duke University Library

Wow! Your team at e-ImageData really knows how to keep elevating your products and now with the new AUTO-Carrier and automating research of fiche and film. This is why we own 10 of your ScanPros.

— Jessica, Brigham Young University

* The 26 megapixel high performance camera uses advanced pixel-shifting technology to capture higher megapixel images. e-ImageData starts with its 6.6 megapixel image sensor, largest in the industry, to capture and integrate 4 unique optical images into a single 26 megapixel camera image, the clearest image in the industry.

Hardware Product of the Year

SEE the Difference with the ScanPro All-In-One

ScanPro 2200 All-In-One shown with roll film carrier and AUTO-Carrier

Do it all with the award-winning, automatic, desktop conversion scanner!

The ScanPro All-In-One microfilm scanners provide all the capabilities you need to get your work done quickly and efficiently. Both an on-demand reader, scanner, printer for all film types AND a high-speed desktop conversion scanner for roll film, fiche and jacketed fiche, the All-In-One scanners save time and save money.

SCANPRO ALL-IN-ONE INCLUDES:

- **Base Model** — Choose the model that best fits your application needs (2200, 3000 or i9300)
- **Motorized Roll Film Carrier** —
 - UCC 510:16/35 Combination roll film and fiche/aperture cards
 - UCC 610:16/35/35M Cartridge combination roll film and fiche/aperture
- **AUTO-Carrier™** — Automatic scanning of fiche and jackets

- **ScanPro® Advantage Membership** — Experience advanced software such as AUTO-Scan® Pro and PowerScan Productivity Suite (PPS) with full access to updates and continuous upgrades. To retain these benefits, an active \$249 yearly membership is required. The first six months is automatically included for free.

ScanPro i9300 All-In-One Specifications

Hardware

26 megapixel camera: (6.6 MP image sensor x 4) with integrated pixel-shifting technology, largest pixels in the industry, over 7 times larger than the nearest competitor

Zoom range: Optical 7x to 105x

Scannable media reduction range: Optical 7x to 105x

Camera orientation: Portrait and landscape selectable providing best image clarity for both portrait and landscape images

USB 3.0/USB 2.0/USB 1.0: Convenient, front access port for flash drives

Image rotation: Optical straightening of images for best image clarity

Illumination: Soft, bright, film-optimized, monochromatic LEDs with lifetime warranty and optically clear carrier glass for best image clarity

Precision-Guide rollers: Low inertia 12 ball bearing design protects film, easy-to-thread, provides precision control of film position and movement

Available Carriers and Media

AUTO-Carrier™: Automatic scanning support for fiche, jackets, aperture cards, micro opaques, also enhances roll film performance

UCC 510: 16/35 combination motorized roll film with and without blips, fiche, jackets, aperture cards, and micro opaques

UCC 610: 16/35/35M Cartridge combination motorized roll film with and without blips, fiche, jackets, aperture cards, and micro opaques

Standard Software Features

User interface: Intuitive Windows computer interface with customizable film selection wizard. Just a single-click to automatically set up your scanner using custom presets that retain all settings including optical zoom and focus. Presets are selected by simply clicking a picture of the customer's film.

Blip sensing: Supports one, two, and three level (highest accuracy in the industry), all common blip sizes and programable to accommodate custom blip sizes. Simplex and duplex film formats, automatic scanning and searching.

AUTO-Scan®: Automatically scans roll film^b, fiche^c and jackets^c
 Straighten and crop
 File formats: PDF, TIFF, JPEG and more
 Unlimited scans, up to 20 images per minute (IPM) roll film^b, fiche^c and jackets^c

FOCUS-Lock™: Continual image focus even during optical zoom

Fit-to-window: Displayed image covers the entire monitor screen leaving no blank area

Magnifier: Digital zoom 7x to 1575x, read small text and examine fine details. Scan and print what is seen in the magnifier window.

Digital image rotation: Click to rotate 90°, 180°, 270°, and 360°

Mirror: Click to mirror image

SPOT-Edit™: Live image editing, select any area (or multiple areas), adjust brightness, contrast, redact or whiteout for any selection with a single-click

AUTO-Adjust™: Automatically adjusts brightness, contrast, straightens, and crops with single click

Automatic straighten: Select fully automatic, or semi-automatic

Previous/Next: Click to quickly and accurately move 1 to 9 images

MergeClips™: Paste, annotate, arrange, and size multiple scans onto a single page

Software selectable resolution: 150 dpi to 2000 dpi, 8-bit grayscale, 1-bit black and white

Scan and save file formats: PDF, TIFF, JPEG and more, single and multi-page, single page OCR (OCR using ABBYY® FineReader Engine)

Specify scan dimensions: Explicitly specify the size of the printed or scanned document image

Watermark and copyright: Customizable warning support for scans and prints

Three single-click print button: Print seamlessly using preset printer and to specific printer paper drawer with the required paper size

Four single-click scan buttons: Scan and save seamlessly using preset file name, format, and path

Single-click scan to cloud button: Scan and save seamlessly to cloud using preset file name and format

Single-click scan to email button: Scan and save seamlessly to email securely using external or embedded email app

Features added by ScanPro Advantage Membership (First 6 months is free, \$249/year thereafter)

AUTO-Scan® Pro: Automatically scans roll film^b, fiche^c and jackets^c
 Auto-brightness, straighten, crop, and duplex film
 File formats: PDF, TIFF, JPEG and more, single and multi-page, with and without OCR (OCR using ABBYY FineReader Engine)
 Unlimited scans, up to 100 IPM roll film^{b,c} and fiche^c, and up to 70 IPM jackets^c
 Automatic file naming using blip address

AUTO-Scan QA: Interactive quality assurance tools for automatic scanning to guarantee you won't miss an image

AUTO-Review: Mode used to perform a quality review of a newly processed roll of film by automatically moving from one image to the next and displaying each image for a customizable period of time

PowerScan Productivity Suite (PPS): WORD-Search™, INFO-Link™, Copy-to-Clipboard (OCR using ABBYY FineReader Engine)

Scan and save file formats: PDF, TIFF, JPEG and more, single and multi-page, single and multi-page OCR (OCR using ABBYY FineReader Engine)
